

Fox Rich Textiles *Organic Collection*

High-Quality, Made-in-America Organic Fabric For Manufacturers and Distributors

Whether in the industrial, apparel, or accessory business, we're all in the business of making the world a better place. We know that more people today feel this moral obligation to encourage a more sustainable environment for ourselves and for generations to come.

This is why Fox-Rich Textiles has developed a 100% organic cotton line of fabrics. Right here in the U.S., the fiber is grown, the yarn is spun, and the fabric is woven and finished. By producing in the United States, we not only support local industry and workers, but also are able to keep tight control over our strict organic regulations. In addition to using organic fiber, all of our manufacturing processes take special consideration for the environment; such as using low-impact dyes, or using natural softeners.

Here's a sample of one of our stock fabrics:

Style 15625

Color - Grown Green and Natural
Gingham Stripe
4.5 ounces per square yard
100% U.S.A. Organic

Finished Products

Although our business is not manufactured end-products, we have close relationships with manufactures throughout the US. Whether it is shirts, bags, cases, upholstery, sheets or some creative new product of your own, let us know. For any product made with organic materials, please contact us-we can help you get it made!

What Exactly Does Organic Mean?

"Organic agriculture (i.e. cotton) is an ecological production management system that promotes and enhances biodiversity, biological cycles and soil biological activity. It is based on minimal use of off-farm inputs and on management practices that restore, maintain and enhance ecological harmony..."

-National Organic Standards Board, 1995
